

Project Manager

mobileTAIPAN Pte Ltd is seeking a qualified candidate for a Project Manager. This position requires a candidate that is experienced and can efficiently lead the product development & the team. The individual is highly valued for its character and initiative to be part of our legacy.

Our Company

mobileTAIPAN is the leading developer of mobile web applications, systems and services.

We develop proprietary cloud-based applications which are then sold to the world on a SaaS business model. These services include business intelligence, management decision-making support, geo information services, multi-channeled mass communication, mobile marketing, digital publishing and digital distribution.

We've recently entered into an exciting new joint venture with a US mass distribution and marketing company based in Atlanta, Georgia, USA. The clients of this US company include Walmart, Coca-Cola, McDonalds, NFL, PGA Tours etc and we are jointly developing a global marketing platform on the internet and in the mobile domain.

We are now expanding our team to meet the challenges of this global mobile and internet mission. If you feel excited by this mission and feel you have the right prerequisites to become part of mobileTAIPAN's high performance team, please submit your CV/Resume to hr@mtaipan.com.

Key Responsibilities:

- Project management inclusive of planning, cost estimation and risk management.
- Responsible for the execution and monitoring of Product Roadmaps.
- Communicate with customers and potential customers to ensure smooth product evaluation, deployment and end-user success for total customer satisfaction.
- Engagement and cultivation of strong rapport with partners and vendors.
- Perform any other duties as assigned and required.

Requirements:

- Recognized qualifications with at least 3 years working experience in Project Management.
- Good planning, cost estimation and risk management skills.
- Experience in planning and managing projects that are at least 50 man months.
- Experience in managing large teams (on-site and off-site) and ensuring high performance.
- Experience in project costing and budgeting will be additional advantage.
- Significant experience in sourcing, evaluating and working with software application developers (vendors).
- Proactive on Technology Updates. Technical background would be additional advantage.
- Experience in drafting RFPs for outsourcing projects and proposal submissions to client's RFPs and Tenders would be additional advantage.
- Good interpersonal and communication skills.
- Able to multi-task and coordinate among various parties.
- Organized and meticulous.

Question – If you were to choose one of the following, which do you choose and why?

- 1) Deliver results with quality but compromise in time***
- 2) Deliver in time but compromise quality***

Interested parties, please submit the following to Dawn at hr@mtaipan.com
