

Senior Business Analyst

mobileTAIPAN Pte Ltd is seeking a qualified candidate for a Senior Business Analyst. This position requires a candidate that is experienced and can efficiently lead the product development & the team. The individual is highly valued for its character and initiative to be part of our legacy.

Our Company

mobileTAIPAN is the leading developer of mobile web applications, systems and services.

We develop proprietary cloud-based applications which are then sold to the world on a SaaS business model. These services include business intelligence, management decision-making support, geo information services, multi-channeled mass communication, mobile marketing, digital publishing and digital distribution.

We've recently entered into an exciting new joint venture with a US mass distribution and marketing company based in Atlanta, Georgia, USA. The clients of this US company include Walmart, Coca-Cola, McDonalds, NFL, PGA Tours etc and we are jointly developing a global marketing platform on the internet and in the mobile domain.

We are now expanding our team to meet the challenges of this global mobile and internet mission. If you feel excited by this mission and feel you have the right prerequisites to become part of mobileTAIPAN's high performance team, please submit your CV/Resume to hr@mtaipan.com.

Key Responsibilities:

- Responsible for planning of Product Features and Roadmaps.
- Gather requirements from clients and propose solutions.
- Plan & draft the requirement specifications documents.
- Liase with off-shore team for detailed functional and technical specifications.
- Perform internal UATs. Plan and lead the UATs with clients and product owners.
- Engagement and cultivation of strong rapport with partners and vendors.
- Perform any other duties as assigned and required.

Requirements:

- Recognized qualifications with at least 5 years working experience in Business Analysis.
- Experience in the analysis of large and complex projects.
- Ability to manage client requirements and propose solutions as per client expectations.
- Experience in preparing professional requirements documents, user guides, solution proposals, etc with high quality.
- Experience in drafting RFPs for outsourcing projects and proposal submissions to client's RFPs and Tenders would be additional advantage.
- Proactive on Technology Updates. Technical background would be additional advantage.
- Good interpersonal and communication skills.
- Able to multi-task and coordinate among various parties.
- Organized and meticulous.

Question – In each of your UAT sessions with client, if you hear more CRs from the client and hence the go-live date is being postponed after each UAT, how will you manage the situation? And how will you ensure go-live after next UAT?

Interested parties, please submit the following to Dawn at hr@mtaipan.com

1. CV/Resume together with your current and expected salary.
2. Digital passport sized photo.
3. The answer to the question mentioned above.

**Please note that only shortlisted candidates will be notified.*
